RE: TDD # 9812-0004; RCRA Deferral Sites  
Safety-Kleen Corporation, Edwardsville, Kansas  
EPA ID# KSD980973515

Dear Mr. Doherty:

Tetra Tech EM Inc. (Tetra Tech) has conducted a file review of the above referenced site and made the following determinations regarding its current status:

Database Status:	In both CERCLIS and RCRIS
CERCLA History:	Discovery - 03/90 Environmental Priority Initiative Preliminary Assessment (EPI-PA) - 09/90
Responsibility:	U.S. Environmental Protection Agency (EPA) RCRA
Site Description:	The facility is a storage area for spent solvents from off-site immersion cleaners and other industrial processes requiring solvents. Spent solvents are transported biweekly to a Safety-Kleen regeneration facility in Elgin, Illinois. The facility is a permitted RCRA treatment, storage, and disposal (TSD) facility.
CERCLA Determination:	In 1990, the EPA field investigation team performed an EPI-PA and submitted a preliminary assessment form (EPA Form 2070-12). The only remedial or removal activity indicated in CERCLIS is the EPI-PA. No other remedial or removal interest is indicated. This site has a Final Strategy Determination indicating no further Superfund interest.
Current Status:	This site has a No Further Remedial Action Proposed (NFRAP) status under CERCLA. This determination was made in June 1997.
Recommendations:	The facility ID No. for this site, KSD980973515, is

# 133 813

S00136483  
SUPERFUND RECORDS

contains recycled fiber and is recyclable

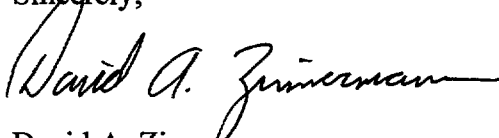

Mr. Paul Doherty

listed in RCRIS and as an archived CERCLIS site. An incorrect facility number (KSD980973516) is entered in one or more EPA databases which is the likely cause of the facility being listed as not occurring in RCRIS. It is recommended that EPA correct the misentered facility ID in the tracking database.

Remarks: None.

If you have any questions regarding this site, or would like additional information before considering our recommendations, please contact me at (913) 495-3910.

Sincerely,

A handwritten signature in black ink, reading "David A. Zimmermann". The signature is fluid and cursive, with a long horizontal stroke at the end.
